

TWEETING LAMP SUSHI CARD

Step 1

Set up a Wylidrin Account and connect an Intel Galileo.

Step 2

Connect a relay and a button to the Galileo.

Step 3

Write code:

- to test the connection between the relay and Wylidrin
- to test the connection between relay and Twitter
- to control the relay by reading tweets from Twitter

Step 4

Connect the lamp to the relay, (rewiring involved here).
