# Connecting the Relay to the Galileo
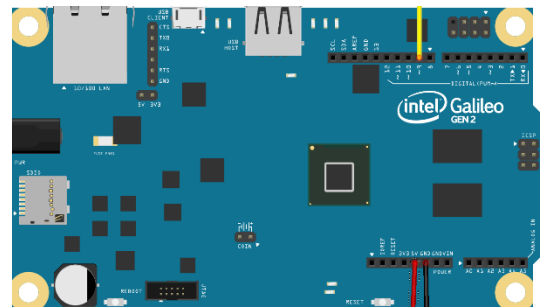

What you will need:

- Grove relay
- Grove universal 4pin cable
- Jump wires
- Intel Galileo
- Ethernet Connection
- SD Card
- Wyliodrin Account

1. Connect the 4 pin cable to the relay.

2. Connect the jump wires to the other end of the 4 pin cable.

3. Connect the jump wires to the Galileo.
Red – 5V pin
Yellow – 9
Black – GND

Connect the Ethernet cable, insert the SD card and run the relay test code.
